

Regulations on the annual Scientific and Practical Conference "SCIENTIA UNESCAMUS"

1-3 April 2016, Moscow

1. General provisions

Scientific and Practical Conference «SCIENTIA UNESCAMUS» (hereinafter referred to as Conference) is a comprehensive program of supporting talented children and youth, a form of cooperation between educational institutions, students, teachers, academics and scientists from different regions of Russia. It is held once a year.

The conference objective is to support and promote talented children and youth, to attract public attention to the problems of society intellectual potential development.

The organizing and holding of the conference is realized by the Gymnasium №1517. The leadership of the conference is conducted by the scientific student community of the Gymnasium №1517.

Special Expert Committee including specialists in different areas is responsible to estimate student works.

2. The order of participation in the conference

The conference is held in 3 stages:

The 1st stage is a full-time scientific and theoretical tour. The conference is an open event, so everyone may attend it as an audience. Scientists and specialists of various areas of knowledge and authors of different works are invited to the conference by organizers to make a speech.

The 2nd stage is a correspondence tour of the contest. All the students' works are required to be sent before the **1st of March**. This stage deals with examination and estimating students' works presented for the contest.

The 3d stage is a full-time scientific and practical tour. The participation in the 3d stage depends on the results of the 2nd stage. Those who will pass through the 2nd tour will be invited to take part in the contest on the **1-3.04.2016**.

Work Sections: Natural sciences and Humanities sciences .

Participants of the competition are students of 5-11 grades. Essays and descriptive papers cannot be placed for consideration. The mail for your papers: **higgsa@mail.ru**.

3. Closing remarks

The results of the second stage of the competition will be summed up before the **10th, March**, by the Expert Committee.

All papers will get marks and estimates from the experts. The results (points) of the first and second stages of the conference will be summarized.

The authors of winner papers and their project managers will be invited for the full-time (the 3d stage) tour. The program of full-time tour (the 3d stage) provides project defence in oral and stand forms.

The winners of the research and project works competition will be awarded prizes, diplomas, certificates and presents.

The following certain nominations are established on the competition:

- for the best interdisciplinary project
- for the most actual idea of the project
- for the best design of stand;
- for the most original problem solution;
- for the most large-scale study.

Interested organizations can establish their own nominations and carry out awarding in these nominations. These organizations should coordinate with the organizers of the conference.

The most interesting projects will be published in almanac "Higgs' Boson"

The results of the conference will be published in printed matters and electronic mass media.
